Brahmapur, Odisha, India

SUMMARY

Java Full Stack Developer with hands-on experience building web applications using Java, Spring Boot, Spring Security, REST APIs, JPA/Hibernate, MySQL, and React.js. Experienced in developing secure RESTful services, JWT-based authentication, role-based authorization, database-driven applications, and responsive user interfaces.

EDUCATION

B.Tech in Computer Science and Engineering

Kalam Institute of Technology, Berhampur, Odisha

2022 – 2026

CGPA: 8.01

Higher Secondary Education (12th), Science

Manitara Science H.S. School, Manitara, Ganjam, Odisha

2019 – 2021

69%

Secondary Education (10th)

Regional High School, Manitara, Ganjam, Odisha

2009 – 2019

67%

TECHNICAL SKILLS

- **Programming Languages:** Java, C++, JavaScript
- **Backend:** Spring Boot, Spring Security, Spring Data JPA, Hibernate, REST APIs, Microservices, Kafka
- **Frontend:** React.js, HTML5, CSS3, Bootstrap, Tailwind CSS, Material UI
- **Databases:** Oracle, MySQL, MongoDB
- **Cloud & DevOps:** AWS, Docker
- **Tools:** Git, GitHub, Maven, Postman, IntelliJ IDEA, Eclipse IDE, Swagger
- **Security & Integration:** JWT, OAuth, Razorpay, Validation

INTERNSHIP

Cognifyz Technologies

April 2026 – July 2026

Java Developer Intern (Remote)

- Worked on assigned software development tasks involving Java, Spring Boot, web application development, and REST APIs.
- Completed development tasks while strengthening backend development, problem-solving, and clean coding skills.

PROJECTS

SwadExpress | Full Stack Food Delivery Application

GitHub

| Live Demo

Java, Spring Boot, React.js, MySQL, Spring Security, JWT, JPA/Hibernate, Razorpay

- Developed a full-stack food delivery application with customer and restaurant/admin modules using Spring Boot, React.js, and MySQL.
- Implemented JWT authentication, role-based authorization, REST APIs, food search/filtering, cart, orders, and restaurant management.
- Integrated Razorpay for online payments and developed responsive customer/admin dashboards using React.js and Material UI.

Classroom Automation | IoT and Device Management System

GitHub

| Live Demo

React.js, Node.js, Express.js, MongoDB, REST APIs

- Developed a full-stack classroom automation system for monitoring and managing classroom devices and sensors.
- Built REST APIs using Node.js and Express.js for authentication, device management, and sensor data handling.
- Implemented MongoDB data storage and a responsive React.js interface for device and sensor monitoring.

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate – Oracle
- AI For Everyone – DeepLearning.AI
- Internet of Things: Communication Technologies – University of California San Diego
- Cloud Computing Foundations – Duke University
- Introduction to Cybersecurity Essentials – IBM
